

HOMEOWNERS' HEALTH CARE HANDBOOK 2021

The Stratford Homeowners' Association and Resident Council

Winifred Marasco, Chairperson

Barbara Wertheimer, JD

Young Kim, MD

Sally Patten

Carol Ruiter, Advisor

Please note: The Health Care Committee has prepared this document in an effort to summarize the health care services at The Stratford. It reflects the committee's understanding of matters and has not been approved or endorsed by Sunrise Senior Living, LLC. You should refer to your Continuing Care Residence Agreement to obtain an authoritative description of the health care services that you will receive from The Stratford. This statement is being included at the request of Sunrise Senior Living, LLC.

1. INTRODUCTION

The Board of the Homeowners' Association formed a Health Care Committee to respond to residents' requests for more information on health care services at The Stratford. This handbook is an effort to summarize those services and is being distributed to residents of The Stratford.

A summary cannot be definitive, so it is important that you study the documents referenced for specific details. If there is any discrepancy between this Handbook and the Continuing Care Residence Agreement (CCRA) or your contract, the CCRA and your contract prevail. If you have any questions about your individual circumstances, you should refer to your contract, the Executive Director, or the Resident Care Director.

The Stratford CCRA - Continuing Care Resident Agreement manual has been revised over the years. The revision date is shown in the lower left-hand corner of the contract pages. Contracts held by our residents may vary based upon the date their unit was purchased. The Appendixes may also vary as to the title on the dividers and/or each section's content, except for Appendix B, "Optional Services," which is updated annually.

II. GLOSSARY OF TERMS

ADL

AL

Activities of Daily Living such as bathing, dressing, toileting, feeding, and ambulation (walking or movement).

Assisted Living. All Stratford units and the Laurel Wing rooms are licensed by the Department of Social Services as Assisted Living units.

CCRA

Continuing Care Residence Agreement

CCRC

Continuing Care Retirement Community

CNA

Certified Nursing Assistant

DSS

LTC

LVN

RN

SNF

Department of Social Services (State of California)

Long Term Care

Licensed Vocational Nurse

Registered Nurse

Skilled Nursing Facility (The Stratford is not a SNF)

III. LAUREL WING

The Laurel Wing is fully staffed, and includes a nursing station and nine suites, licensed Assisted Living units, located on the 2nd floor. It provides basic services and a nursing team to assist.

Remember to always inform the Laurel Wing team of any medical change in health as well as changes in documentation i.e., (medication, insurance cards, medical providers, Advance Directive, including POLST).

the Laurel Wing team should be notified in advance of any planned medical procedures, surgery and/or hospitalization.

In the case of any emergencies while away from The Stratford the Laurel Wing needs to be contacted.

IV. STAFFING IN THE LAUREL WING

1 LVN and 1-2 CNA's per shift

- Resident Care Director (RN): Daytime based on the needs of the community
- Assisted Living Coordinator (LVN): Daytime based on the needs of the community

Medical Director (MD): Provides consultation services to The Stratford residents and staff. Performs wellness visits in the Laurel Wing

once a month. Provides bi-monthly clinics, by appointment. Consultation/second opinion for residents. (See page 10 for more information.)

V. BASIC SERVICES IN THE LAUREL WING

- Three meals a day.

ADL assist with: Dressing, Bathing, Transferring, Toileting, and Ambulation (walking or movement). For medication charges see CCRA Appendix B.

VI. ASSISTED LIVING IN RESIDENT'S UNIT

For those residents not requiring a Laurel Wing stay, the Care Team is available to schedule and assist with care in the resident's unit. (See CCRA Appendix B)

VII. HEALTH SERVICES PROVIDED ON A FEE-FOR-SERVICE BASIS

Each year The Stratford publishes a list of Services and Amenities which includes Laurel Wing services. Some are free and some can be purchased by the hour or partial hour. Refer to the list of Services and Amenities for further information. (See CCRA Appendix B)

VIII. ASSISTED LIVING CONTRACT VARIATIONS

CCRA Contracts: Residents on these contracts are eligible for The Long Term

Care Program.

CCRA Contracts with waiver. Contracts which provide assisted living services on a daily or hourly cost basis.

IX. CONTRACT ELIGIBILITY PERIOD FOR ASSISTED LIVING

Up to 60 days per calendar year, with a lifetime maximum of 120 days in Laurel Wing. During this period, the resident pays one Primary Monthly Charge. However, there may be additional charges for services required in addition to the basic services provided in the Laurel Wing as described in Section V.

Residents who purchased prior to 2006 and residents on waiver should refer to their contracts.

X. PRIMARY MONTHLY CHARGES AFTER THE CONTRACT ELIGIBILITY PERIOD

- Single homeowners in the Laurel Wing will pay two Primary monthly charges one for the homeowner's unit and one for the occupancy in the Laurel Wing. There may be additional charges based on services needed.

Couple homeowners with one member in the Laurel Wing will pay two Primary monthly charges - one for the owner-occupied unit and one for the occupancy of the Laurel Wing.

Couple homeowners with both members in the Laurel Wing will pay three Primary monthly charges - one for the Primary unit and one for each person. in the Laurel Wing.

XI. SALE OF CONDOMINIUM TO AVOID ONE PRIMARY MONTHLY CHARGE

- If you are the sole occupant of your unit and are permanently transferred out of your residential unit to an assisted living unit or to an outside facility, The Stratford may require you to sell your condominium. In that case, you will continue to receive services and will pay one Primary monthly charge, together with any applicable surcharge to cover the added costs of managing your care.

You will be required to place the sale price of your condominium into a trust account, less the transfer fee and any closing costs. The account

will be administered by The Stratford or a trustee obtained by them. Details are contained in CCRA, "Transfers for Single Occupancy Residents."

XII. MEDICARE COVERED HEALTHCARE SERVICES

A. HOME HEALTH CARE

If an individual is homebound because of inability to leave the unit without help due to injury or illness, or leaving the unit isn't recommended, some health services may be provided.

It must be certified necessary by a physician or a health professional working with a doctor after face-to-face evaluation. The services provided may be part-time or intermittent skilled nursing care and/or speech therapy or occupational therapy. Also, medical social services, part-time or intermittent home health aide services, and medical equipment and supplies may be provided. Refer to up-to-date "Medicare and You."

B. HOSPICE CARE

A compassionate comfort care team of physician, nurse, social worker, spiritual and emotional support person and volunteer hospice worker is provided when a diagnosis of terminal illness of six months or less is made. The time period may sometimes be extended beyond six months depending on the circumstances. Some supplemental day or

nighttime help may be necessary which is not covered by Medicare. Refer to up-to-date "Medicare and You."

C. SKILLED NURSING FACILITY CARE (SNF)

Only after a three-day stay in an acute care hospital and your physician's prescription will Medicare cover a semi-private room, meals, skilled nursing and other medically necessary services and supplies in a SNF. (Time in the emergency room does not count nor does the day of discharge no matter how late in the day.)

(You may not need a three-day minimum inpatient stay if your doctor participates in an Accountable Care Organization or in an entity participating in another type of Medicare initiative.)

You pay nothing for the first 20 days of each benefit period.

a coinsurance amount per days 21-100 days of each benefit period.

all costs for each day after day 100 in a benefit period.

- If Medicare, a Medicare HMO, or other long-term health insurance does not cover the costs of a SNF and you are a participant in The Stratford's Long Term Care Program (i.e. not on a CCRA Contract with waiver), Sunrise Stratford will cover the basic services in a semi-private room at a SNF approved by Sunrise Stratford. This requires that you first pay the costs described in "Skilled Nursing Facility" section in the CCRA. It describes the maximum costs Sunrise Stratford will pay at a SNF and their

requirements for taking advantage of this Benefit. Refer to CCRA and up-to-date "Medicare and You."

D. TRANSITIONAL CARE SERVICES

Medicare covers this service if you are returning to your community after a stay at certain facilities, like a hospital or skilled nursing facility. The health care provider who is managing your transition back into the community will work to coordinate and manage your care for the first 30 days after your return home. You will also get an in-person visit within 2 weeks of your return home. Refer to up-to-date "Medicare and You."

Page 6

E. HOSPITAL

The Stratford will arrange for your care, at an accredited acute care hospital if you or your physician is unable to make these arrangements. The Stratford will monitor your case while at the hospital and will coordinate your return to The Stratford with the hospital, your physician and you. (Refer to CCRA).

F. SEARCH FOR CARE SERVICES

If asked, The Stratford will assist in the search and arranging for the care services. (Refer to CCRA)

Visit [medicare.gov](https://www.medicare.gov) to find health care services near you:

- To obtain helpful information about doctors, hospitals, and other health care services in your area, based on your individual needs.

See contact information, direction, and quality ratings for Doctors and other providers

Hospitals

Hospice and home health agencies

Inpatient rehabilitation centers and long-term care hospitals

XIII. TRANSFER FROM ONE'S UNIT

The Stratford may transfer a resident to the Laurel Wing or to another medical facility as determined by space in the Laurel Wing and by the resident's medical condition. The decision will be made by the Resident Care Director in consultation with The Stratford Management. If the resident requires services beyond the scope of The Stratford such as a licensed Assisted Living Facility, a transfer will be arranged (e.g., Skilled Nursing Facility or Memory Care.) The decision to transfer and facility selection will be made only after consultation with family members or a surrogate and the resident's personal physician.

XIV. RETURN TO ONE'S UNIT AFTER TRANSFER

- If the resident no longer requires Laurel Wing services and returns to the resident's unit, there will be no further charges, either against the

maximum number of free days or the fee for residents who have used up their free days.

- If the resident requires full Laurel Wing services in the resident's unit, the Laurel Wing fees against the maximum free days will continue to apply.

Return to the unit requires consultation with the family physician and Stratford staff.

XV. USE OF OUTSIDE ASSISTANCE

Aides (Agency or Non-Agency), physical therapists, occupational therapists, podiatrists, etc. are permitted in the Laurel Wing and in the resident's unit after being vetted by management and proper documentation.

Private caregivers:

Private caregivers will be hired by the resident or responsible party when determined by the Stratford Laurel Wing Team or other medical parties that it is required for the resident's safety.

- The Private caregiver is to be in place for resident's safety and companionship.

The Laurel Wing Care Team will continue to assist with Activities of Daily Living, including showering and dressing.

Private caregivers are expected to be in close communication with the Laurel Wing Team including reporting any changes to resident's overall health and safety.

- There will be an additional fee charged by The Stratford for those residents who need assistance with activities of daily living in their independent unit. (See Appendix B)

- Caregivers hired privately or through an agency are subject to background check and the required state documents.

Any additional questions regarding private caregivers should be directed to the Assisted Living Coordinator or Resident Care Director.

XVI. PERSONAL INSURANCE REQUIREMENTS

The Stratford requires you to enroll, at your own expense, in Medicare or a Medicare HMO, Medicare Advantage and also a private supplemental insurance plan acceptable to The Stratford.

You should know the name, plan ID number, and contact numbers of your insurance policies as well as the contact information for your personal physician.

XVII. OMBUDSMAN SERVICE

This free service is provided by a qualified volunteer Social Worker who periodically checks the facility for the safety and well-being of all

Assisted Living Residents (Laurel Wing and units.) The Ombudsman assists with complaints and can mediate with management.

XVIII. LAWS GOVERNING CONTINUING CARE RESIDENCES FOR SENIORS

The California Department of Social Services oversees The Stratford to ensure compliance with the Continuing Care Retirement Community (CCRC) and Assisted Living (AL) requirements.

XIX. SERVICES PROVIDED BY THE MEDICAL DIRECTOR IN THE LAUREL WING

DR. SHELLY SALPETER

Assists the Resident Care Director and/or Executive Director to refer resident to the appropriate practitioner (specialist) and initiate physician-to- physician contact, if needed.

Consults with management in collaboration with the resident's physician

and family, to determine the resident's medical needs that require support

services.

Provides consultation for high-risk residents to determine when a higher level of care is required.

Provides medical consultation to the community during infectious outbreaks (i.e., Norovirus, Pneumonia, Flu, and COVID-19.)

Consults with management in resolving complex medical issues impacting resident's stay in the community.

Provides consultation for complex hospital discharges.

Conducts bi-monthly clinics, by appointment. Provides consultation/second opinion for residents.

Re: Rehabilitation Facilities Survey Results

Attached please find a copy of the results of the recent Survey of Rehabilitation Resources conducted by the Health Care Committee of the HOA/RC. Thanks to all the residents and staff who contributed their time and comments. We hope this document will be helpful to residents when faced with selecting a rehab facility. Feel free to share it with family members. The list is by no means exhaustive and reflects patient comments at only one point in time. Finally, places and services change, so this listing must be periodically updated.

:

REHABILITATION RESOURCES

SPRING, 2023

This document is intended to provide Stratford residents with a few local options for rehabilitation facilities. The information presented was gathered by a questionnaire sent to Stratford residents as well as from

interviews with both residents and staff. This document reflects information and opinions prior to June 2023.

To begin, several residents recommended returning to the Laurel Wing if possible. The Laurel Wing is licensed as assisted living and reports to the Department of Social Services. It is not a skilled nursing facility (SNF) (which reports to the Department of Public Health). The Laurel Wing does not provide occupational, physical, speech, or rehab therapy. In returning to the Laurel Wing, individual service providers must be hired separately. Often, after a patient is released from a hospital, s/he is unable to return to the Stratford immediately and must enter a rehab facility first to obtain these therapies. While returning to the Laurel Wing may be the preferred choice, it may not be advisable.

In order to be eligible for rehab services through Medicare, a patient must have been in the hospital for 72 hours. An emergency room stay does not count toward the 72 hours. In addition, a physician's referral is required. If a resident is on a Stratford waiver, Medicare will not reimburse for a return to the Laurel Wing.

This document is intended to identify facilities that offer rehab services on a short term basis. Many are also skilled nursing facilities. The operative descriptors are "post acute care," "sub acute care," etc. This is NOT an endorsement from Sunrise Senior Living.

To begin, residents searching for rehab facilities may wish to avail themselves of a local agency such as:

EnABLE Care Management (851 North San Mateo Dr., Suite D, San Mateo, CA.)- It provides support and assistance in finding appropriate placements for patients. It can assist in "managing the system." Clients are billed by the hour and receive a monthly bill.

This service was recommended by a Stratford resident. It is NOT an endorsement from Sunrise Senior Living.

The following facilities have been identified by Stratford residents or staff. Some are skilled nursing facilities with a rehab wing. Resident and staff pros and cons of each site are stated. The initial information given (address, for example) is taken from the Web. This information is subject to change and this resource list should be updated regularly.

Kaiser patients need to check with Kaiser every step of the way. Kaiser has its own approved facilities. In addition, some facilities do not accept Kaiser patients.

1. Atherton Park-1275 Crane St., Menlo Park, 94025; " post acute with

restorative nursing"

Pros:

Cons: "I have been here numerous times and accepted patients for there. I would not send my dog there."

2. Cal Pacific Medical Center (CPCM)-Castro and Duboce Street, San Francisco, 94114; "This location offers inpatient acute rehabilitation for patients requiring comprehensive and intensive rehabilitation..."

Pros: remodeled rehab; well equipped; covers whole floor; excellent

Cons:

3. Carlmont Gardens-2140 Carlmont Dr., Belmont, 94002; "74 beds, post surgical care services, post acute care"

Pros: wonderful PT; lots of equipment; the standing frame for stroke patients is wonderful

Cons: old facility; not open to Kaiser patients; staffing was a problem over the Christmas and New Year's holiday

4. Chaparral House- 1309 Allston Way, Berkeley; "post acute care"

Pros: well managed; "I had good luck placing student nurses there;" "This is the only place I would send my mother. It may not be fancy, but it has an excellent staffing ratio, is non-profit and mission driven. I would not recommend any other SNF (skilled nursing facility) over this one to my friends and family."

Cons: old facility

5. Pacifica Nursing and Rehabilitation Center-385 Esplanade Ave, Pacifica; "68 beds, short term rehabilitation, 67% of residents return home"

Pros: excellent rehab; intensive, twice a day

Cons: not a lovely facility; food was awful

6. Palo Alto Commons-4075 El Camino Way, Palo Alto, 94306; "high acuity care"

Pros: specific wing for rehab; clean, comfortable care

Cons: intake process was non-existent

7. Palo Alto Post Acute and Rehabilitation-911 Bryant St.; "rehab therapy"

Pros: The quality of the therapy was good.

Cons: There was no attention given to requests, and staff members did not answer in a timely way. The food was mediocre mostly consisting of ground beef and canned fruits and vegetables. Service in the middle of the night was terrible. Cleanliness was rated as mediocre. The staff is poorly trained, rude and uncaring.

8. Peninsula Post Acute-1609 Trousdale, Burlingame, 94010; "62 beds, short term rehab"

Pros: Food, cleanliness and middle of the night service were ok. We had no complaints about the staff at all. They made sure we had water all day. The rehab and therapy were excellent. Staff members were polite and

friendly, but short handed. Single rooms are available. Middle of the night service was reasonable, but there was a slight wait. It was clean. Close to hospital.

Cons: The quality of therapy was terrible. This facility is referred to as "Looney Alley." It is inadequate, depressing and should be replaced. There was really no instruction in PT. There is insufficient staff (who do their best), ending up in a delay of care. The rooms were very small for 2 beds. The patients there appeared to be homeless, and this was their home. I had a bathrobe and all were impressed because they had none. A two bedroom room with a toilet and sink was shared by the adjoining room. The food did not look appetizing at all. There was often a wait for night time attention. All in all it was a disappointing experience. No wonder locals call it the "cuckoo's nest." No standing frame; equipment placed helter skelter.

9. San Bruno Skilled Nursing-890 EL Camino Real, San Bruno 94066
"short term rehabilitation; fully equipped therapy gym"

Pros:

Cons: web site photos look much better than I remember; quite scruffy outside; no doors inside; in a room for four; right on El Camino, so very noisy

10. The Rehabilitation Center at Santa Clara Valley Medical Center-
751 S. Bascom Ave., San Jose, 95128; "post acute care transition; 64 bed full service physical rehabilitation facility; cutting edge "Zero-G" gravity system"

Pros: very good; huge campus

Cons: my husband moaned about the food

11 and 12.- The Terraces at Los Altos-373 Pine Ln., Los Altos 94022;
"specialize in short term rehabilitation services for our residents and non
residents through direct admission"

and

:

The Terraces at Los Gatos-800 Blossim Hill Rd., Los Gatos 95032;
specialize in short term rehabilitation services for our residents and non-
residents through direct admission"

Pros: Two hidden gems; would highly recommend to our residents
who are used to "Stratford living."

Cons:

13. The Vi at Palo Alto Care Center-620 San Hill Rd., Palo Alto,
94011; "provides both short term rehab and long term care"

Pros: large rooms; single occupancy; quiet; well equipped; staff very
pleasant (occasionally unresponsive to call button), PT well equipped room,
very good staffing; OT, very good information and supplies; weekday food
good with excellent choices and quality; overall rating-very good.

Cons: week end food was of lower quality; middle of the night service
was sometimes very slow.
